Group revenue rose 62.2% to ₩3,580.6B in 2024 from ₩2,208.1B in 2023, owing to buoyant volume growth from Nigeria in addition to price increases in selected operations in line with inflationary realities.

Sales volumes from our core Nigerian operations rose 7.9% to 17.7Mt in 2024 from 16.4Mt in 2023. The rebound in Nigeria volumes was driven by enhanced sales and marketing initiatives that further boosted the market presence of our products to benefit from the uptick in economic activities.

As a result, Nigeria revenue rose 69.0% to ₩2,192.7B in 2024 from ₩1,297.6B in 2023.

Meanwhile, pan-African volumes recorded a marginal decline of 1.1% to 11.1Mt, due to adverse weather conditions in Tanzania, in addition to election uncertainties in Senegal and South Africa. However, revenues were up by 60.0% to №1,481.4B, while EBITDA closed the year at №345.3B, up 30.9% from the corresponding year.
